

# Bhushan Pawar

Hi, I'm Bhushan — a software developer who loves turning ideas into simple, useful, and reliable applications. I enjoy writing clean code, solving real problems, and making software easy for people to use. I focus on performance, good design, and teamwork. I like working with creative teams where I can learn new things and help build products that make a difference.

## Projects

### Dynamic Solar System — HTML, CSS, JavaScript

Built an interactive solar system model for school science clubs to explore planetary motion on any device. Designed accurate, mobile-friendly visuals using canvas and JS animation loops. Added keyboard controls and responsive layout for accessibility. Teachers now use it regularly in class demos.

### BhushanChessBot — Python

A personal chess training bot that connects to Lichess and learns from your PGN games. Automated setup, handled secrets securely, and built a command-line interface. Helped learners streamline their chess preparation and analysis.

### Bhushan Chess Academy Website — HTML, CSS, JavaScript

Developed a marketing website for a local chess academy to boost visibility and engagement. Refreshed design and content with a focus on clarity and brand identity. Increased user engagement and sign-ups through improved UX.

## Educational Background

### Master of Science

MIT ACSC, Pune  
2022 - 2024

- Specialization in Computer Application.

### Bachelor of Science

AES, Hingoli  
2019 - 2022

- Specialization in Computer Science.

## Career Objective

To start my career as a software developer and work on projects that help people. I want to keep learning, write clean code, and become better every day.
